REMARKS-BEEF CATTLE. ering the season of the year the market for beef sattle this week opened under most favorable eircum-stances. The aggregate supply was moderate, and the average quality unusually good. In view of these facts, combined with the cool state of the weather and the Sect that a large proportion of the cattle at the Washington drove yard were held by speculators, the market ended firm, not to say buoyant, and dealers in beef were constrained to come down to the tune of Sc. a Sc. per pound for anything like marketable cattle, and still higher rates had to be paid, as a matter of course, for the first selections, which usually fetched 9 %c. All things considered, the owners, most of whom were in the arena as speculators, had cause for congratulation, for prices ruled pretty firm, and the unexpected arrival of a comparatively small number would have completely unsettled the market and upset all their nisely laid plans. The average quality of the cattle which have arrived this spring has been much superior to former years, and it is a noteworthy fact that very few inferior cattle are arriving, while the greater proportion are good, well fatted, corn fed beeves. There are also fewer old "critters" coming in, and there are usually but few cattle in the yards which are not marketable, or which will not make very good beef. The range of prices was very much the same as last week, and, as then, the bulk of the cattle brought 8c. a 9c. per pound, with comparatively few sales at the inside prices.

MILCH COWS.

Wery little of interest can be said in regard to the sarket for mileh cows. The demand is still very moderate, and prices remain in state que. The above quotations afford a pretty correct criterion to the market.

The market remains steady, with a moderate inquiry all kinds. Prices remain without essential change.

for all kinds. Prices remain without essential change.

The receipts continue moderate and with a steady fair demand. The market was ruled pretty buoyant at all the yards, and though there was a decline of 25 cents per bend, remunerative prices everywhere obtain. For prime fat and fancy sheep the demand continues active, and prices are very high though very irregular—often varying from \$6.50 to \$7.50 per head—when there is little or no perceptible difference in the quality. The following reles in lots per head at Chamberlin's will afford a pretty correct idea of the market cleawhere:—93 sheep and lambs at \$6.75 per head; \$1.40., \$6.25. 101 do., \$6.25. do., \$6.76.288 do., \$6.50, 330 do., \$5.25, 186 do., \$6.57 do., \$4.75, 435 do., \$3.75. Total 1,881.

The market has ruled steady, with a moderate inquiry of our corrected quotations. The receipts of dressed hogs are very insignificant, and the market for them is merely nominal.
